

Circular No 09/18-19

Date: 10/08/18

Dear parents,

“Stop the pollution quick, Don’t make our earth sick”

MLZS has started **“Beat The Plastic Pollution”** Initiative in the School.

“Beat the Plastic Pollution”, the theme for World Environment Day 2018, is a call to action for all of us to come together to combat one of the greatest environmental challenges of our time.

We have taken up this initiative and are considering how we can make changes in our everyday lives to reduce the heavy burden of plastic pollution on our natural places, our wildlife and on our own health.

As a part of our social initiatives, the school has decided to recycle plastic products- like bottles and polybags. These will be recycled to make consumable products like pencil pouches, pen stands, flower pots etc. during the craft periods.

These items would be eco- Friendly and cost effective. We request everyone to realise that plastics are the real villains of our lives. So support our mission and make this earth a better place for everyone's survival. Let’s join our hands to reduce, reuse, recycle and refuse plastic.

Remember **“If you can’t REUSE it, REFUSE it!”**

Regards

Principal
